

12 & 13 October 2017

EarthWays Leadership Retreat

Connect with your authentic self and emerging path.

Reinventing organizations means reinventing leadership.

While managing is about hand-ling, **leading is about a process of transformation that starts with a personal journey of growth in consciousness.** The Indo-European root word of leadership means “to go forth, to cross a threshold”. Crossing a threshold is the first step in a Hero’s journey according to J. Campbell. Asking the questions “Who am I? Where am I going to?” and facing the unknown with openness and trust, receiving what is emerging, is part of the Hero’s quest.

In this 2-day EarthWays Leadership Retreat you will cross a threshold in the journey to connect with your authentic self and your emerging path.

- **You will get clarity on your personal purpose**, on what drives you and gives real meaning and motivation. You will rediscover what gives you energy and joy.
- **You will acquire new interpersonal skills and become more aware of your own leadership and communication style and patterns.** You will become more conscious about your way of perceiving reality and interacting with others.
- **You will explore and crystallize what you want to contribute, create, prototype, realize in the world.**
- **You will enhance your authentic presence** and impact and sharpen your intuition. You will learn to manage your energy and attention in a different way.

FOR WHOM

Entrepreneurs, people in - or on a growth path to - leadership roles:

- Who want to re-source themselves, grow as people
- Who want to be equipped to lead organizations of the future
- Who want to learn and connect with others in a natural environment (off-site and off-line)

The retreat will be in English or Dutch depending on the language spoken by participants. Individual mentoring before or after the retreat can be offered. This retreat can be designed as an in-company program.

In Kasteelhoeve Wange, a natural & sustainable retreat centre in Belgium
